Summary

I'm a creative and enthusiastic graphic designer with a strong foundation in Adobe Photoshop, Premiere Pro, and After Effects, along with experience in similar design and editing tools. I'm passionate about bringing ideas to life through visually engaging content, whether it's eye-catching designs or dynamic video edits. I'm eager to apply my skills, learn from experienced professionals, and contribute to meaningful projects through an internship opportunity.

Experience

May2025–
June2025

ThinkNEXT
Technologies
Private Limited

Power BI and Automation Intern

Gained hands-on experience in data analytics and automation by working extensively with Microsoft Power BI and other automation tools. My primary focus was on designing, developing, and deploying real-time dashboards to visualize business-critical data effectively. I learned to work with data modelling, DAX functions, Power Query, and various visualization techniques to enhance data interpretation and user engagement.

Projects

- Samsarah (VR Experience):** Built a 3D VR learning environment of Earth & solar system using Unity & Blender.
- Personal Finance Tracker:** Developed a MERN stack web app for expense tracking, savings tips & investment insights
- CompFlex:** The mission is to bring your favorite movies and TV shows to life with exciting edits that entertain and inspire.
